

Guidelines-Based Asthma Care Webinars

Medicaid Coverage of Asthma Self-Management Education: Analysis of Services, Providers and Settings

Please join the American Lung Association on Thursday, June 15th at 2:00 pm (EST) for a webinar on the importance of self-management education in guidelines-based asthma care and the coverage landscape of self-management education across ten state Medicaid programs. The webinar will also highlight the gaps and challenges in Medicaid delivery of self-management education.

The webinar will feature experts from the American Lung Association and the Milken Institute of Public Health at George Washington University on the wide spectrum of self-management education coverage offered among states and opportunities for improved coverage.

Asthma Care Coverage Project - A Comprehensive Look into Nationwide Medicaid Coverage and Barriers to Guidelines-Based Asthma Care

Please join the American Lung Association on Wednesday, June 28th at 2:00p.m. (EST) for a webinar that will discuss the need and importance of state Medicaid coverage of guidelines-based asthma care that includes medications, medical devices, allergy testing, allergy shots, asthma home visits and interventions and self-management education. The webinar will share the findings of a comprehensive nationwide analysis that the American Lung Association has undertaken of state Medicaid coverage and barriers to guidelines-based asthma care across all 50 states, District of Columbia and Puerto Rico.

The American Lung Association is excited to share more about the Asthma Care Coverage Project and resources available for you and your communities to help identify gaps or deficiencies in state Medicaid coverage of guidelines-based asthma care and to amplify the significance of its coverage to reduce the burden of asthma for Medicaid populations.
