

ONE SCHOOL **COUGHED-UP**  
**\$9 MILLION** FOR FAILING  
TO RESPOND TO ASTHMA.

Getting harder to breathe? Don't be fooled by how insignificant asthma seems. One California school was sued to the tune of \$9 million for its negligent response to asthma. Asthma is the most common chronic disease in Michigan schools, and its effects are often underestimated or ignored.

The American Lung Association has found that asthma lurks undetected in many Michigan schools.

*Can your district afford \$9 million?*
