November, 2012

Dear Partner in Asthma Care,

The Mid-Michigan Asthma Coalition (MMAC) is a group of professionals and volunteers who organize and provide community programs for families affected by asthma in the Lansing area. The coalition has focused on asthma programs for children, adults, and health care providers in the Tri-county area for over 15 years.

The coalition has relied on funds from the American Lung Association and pharmaceutical companies. These resources are no longer available and the coalition is in need of financial support to continue its efforts in our community.

MMAC has sponsored and organized several outreach events over the last several years, in schools, churches, and at the Impression 5 Museum. This year the Ingham County Health Department will open a Pediatric Asthma Clinic in support of the primary care physicians who serve the most high-risk asthma population. The coalition would like to support the clinic by purchasing peak flow meters, inhaler chambers, and transportation vouchers for the children that attend the clinic.

We hope that you consider supporting the Coalition and the Asthma Clinic. Your contribution will directly support asthma patients and their families in our community. Please make your check payable to the American Lung Association and write in “MMAC” the notation line. We welcome new members!

Mail to: American Lung Association  
c/o Robert Singletary, Controller
