

# The Burden of Work-Related Asthma (WRA) in Michigan

3,634 cases between 1988 – 2018

Physicians should consider workplace exposures in new or worsening adult asthma.

Workers can develop WRA from exposure to low levels of asthma-causing agents.

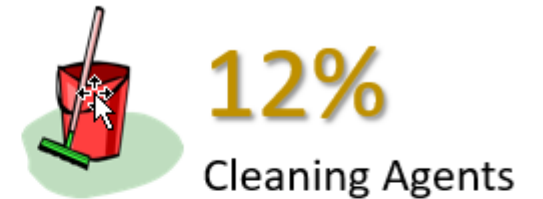

\*Reactive Airways Dysfunction Syndrome

## Top Industries

## Top Exposures

For every WRA patient: 1 in 6 co-workers had daily or weekly breathing troubles at work
